**Detailed Action**

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "first and second side shells", bridging lines 24 and 25 should be changed to --center shell-- to provide an accurate structural arrangement. See figure 2 of the drawing wherein one end of each cylinder is attached to the center shell and the other ends to opposite side shells.
